

SECOND SEMESTER 2018-19
COURSE HANDOUT

Date: 04.01.2019

In addition to part I (General Handout for all courses appended to the Time table) this portion gives further specific details regarding the course.

Course No.	: BITS F312
Course Title	: Neural Networks and Fuzzy Logic
Instructor-in charge	: SurekhaBhanot
Team of Instructors	: Bijoy Krishna Mukherjee

1. Course Description: This course aims to introduce basic concepts, mathematics, application of AI techniques mainly neural networks, fuzzy logic, expert systems, evolutionary algorithms in modeling, control, classification, clustering, prediction problems.

2. Scope and Objective of the Course:

- Understand concept, techniques, applications, future of the field of “Artificial Intelligence”
- Understand the concepts, mathematics, techniques to implement fuzzy logic in various engineering applications
- Understand basic concepts, mathematics, different learning algorithms in ANNs
- Understand Evolutionary algorithms for optimization like GA, PSO etc.

After completing this course the students will be able to

- 1) Understand the techniques used, application, impact of this new emerging area called “AI”, “soft computing”
- 2) Design of Expert Systems
- 3) Implement different learning algorithms used in Artificial neural networks to apply in applications such as modeling, control, prediction etc.
- 4) Understand mathematics behind fuzzy sets, implement fuzzy logic systems for decision making, control, classification etc.
- 5) Design Hybrid AI techniques and evolutionary optimization techniques.

3. Prescribed Text/ Reference Books

1. Artificial neural networks, B Yegnanarayana, Prentice Hall
2. Introduction to Soft Computing, Samir Roy, Udit Chakraborty, Pearson
3. Process control: principles and applications, SurekhaBhanot, Oxford University Press
4. Fuzzy Logic with engineering application, Timothy J Ross
5. Intelligent Systems and Control Laxmidharbehera , Indrani Kar

6. Nature-inspired metaheuristic algorithms, Xin-She Yang, Luniver Press
7. Neural Network Design, Martin D Hagen et al - <http://hagan.okstate.edu/NNDesign.pdf>
8. A first course in Fuzzy and Neural Control, By Hung T Nguyen, N R Prasad, C L Walker, E A Walker Chapman & Hall/CRC Press Company
9. Fundamentals of Neural networks, architecture, algorithms and applications, LaureneFausett, Pearson Education
10. Artificial Intelligence, a modern approach. Stuart J Russell, Peter Norvia, Pearson
11. Soft Computing-Fundamentals and Applications Dilip K Pratihari, Narosa Publishers
12. Engineering Optimization, 4th Ed., S.S. Rao, John Wiley & Sons

4. Course Plan

Module Number	Lecture session/Tutorial Session.	Reference	Learning Outcome
1. Introduction to AI, intelligent systems, soft computing	L1.1. Machine learning, Intelligent Systems, soft computing, achievements, future directions		Get an overview of field of artificial intelligence and the techniques for implementing AI, future implications
2. Fuzzy Logic	L2.1 Fuzzy Set theory, fuzzy set operations, fuzzy relations,	R2: Ch2, 3 &4 R4: part of Ch1, 2, 3, 4,11,13 + Class notes	Understanding of mathematics behind Fuzzy Logic, sets, operations, relations.
	L2.2 Fuzzy applications in classification, pattern recognition,	R4: Ch10 + Class Notes	Classification using C means, Fuzzy C means
	L2.3 Fuzzy applications in control, Matlab implementation	R3: Ch18 + Class notes	Design of fuzzy logic control system and its implementation in Matlab
3. Artificial neural networks, learning algorithms, ANN	L3.1 model of artificial neuron, Architecture ,Learning methods:	R2: Ch6 & 10 R3: Ch17 + Class notes	Get an understanding of different learning algorithms in ANNs,

BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE, Pilani
Pilani Campus
AUGS/ AGSR Division

for modeling, control, function approximation, prediction	Supervised, Unsupervised, Reinforcement,		applications of ANNs for modeling, control, classification, prediction etc, Matlab implementation
	L3.2 Perceptron, Back propagation, Hebbian, Hopfield, dynamic, competitive, RBF networks, Convolution networks, Deep learning	R2: Ch6 & 10 R3: Ch17 R6: part of Ch2, 3, 4, 7, 11, 14, 15, 16, 17, 21, 23-27 + Class notes	
	L3.3 ANN applications in function approximation, modeling, pattern recognition, prediction, modeling & control	R7: Ch5 &6 R8: Ch1,2,3,4,5,6 +Class Notes	
4. Nontraditional or Evolutionary Optimization Techniques	L4.1 Introduction to traditional optimization; Lagrange multiplier method; Gradient descent method	R12: Ch2 & 6 + Class Notes	Understanding a few popular evolutionary optimization algorithms and appreciating the advantages they offer over the traditional techniques. Understanding how the different members of the Soft Computing family can be combined for performance improvement.
	L4.2 Introduction to nontraditional optimization; Genetic Algorithm; Particle Swarm Optimization	R11: Ch3 R12: Ch13 +Class Notes	
	L4.3 Neuro-Fuzzy-Evolutionary hybridization	R11: Ch9 & 11 + Class Notes	

BIRLA INSTITUTE OF TECHNOLOGY AND SCIENCE, Pilani
Pilani Campus
AUGS/ AGSR Division

5. Evaluation Scheme:

Evaluation Component	Weightage (Marks)	Date & Time	Remarks
Mid-Sem.	90 M	15/3 9:00 - 10:30 AM	Closed Book + Open Book
Comprehensive	135 M	10/5 FN	Closed Book + Open Book
Project Assignment	75		
Total	300 M		

Closed Book Test: No reference material of any kind will be permitted inside the exam hall.

Open Book Exam: Use of any printed / written reference material (books and notebooks) will be permitted inside the exam hall. Loose sheets of paper will not be permitted. Computers of any kind will not be allowed inside the exam hall. Use of calculators will be allowed in all exams. No exchange of any material will be allowed.

6. Chamber Consultation Hour:

7. Notices:

All notices regarding the course will be posted on NALANDA

8. Make-up Policy:

9. Note:

It shall be the responsibility of the individual student to be regular in maintaining the self study schedule as given in the course handout, attend lectures and assignment submission as per the schedule announced in Nalanda. Mid Semester Test and Comprehensive Examination are according to the Evaluation Scheme given in the respective Course Handout. If the student is unable to appear for the Regular Test/Examination due to genuine exigencies, the student must refer to the procedure for applying for Make-up Test/Examination. No make up for the tutorials.
